

WHAT ARE WE SOLVING?

THE AI REVOLUTION HAS CREATED A HUMAN ADOPTION GAP.

AI WILL ADD \$15.7 TRILLION
TO THE GLOBAL ECONOMY BY
2030*

Yet **70%** of organizations struggle to
move beyond experimentation to
meaningful, measurable impact.

70%

OF ORGANIZATIONS
STRUGGLE TO MOVE
BEYOND
EXPERIMENTATION

THE PROBLEM

1

AI IS ADVANCING
FASTER THAN PEOPLE
CAN ADAPT.

Skills gaps are growing
across every industry and
role.

2

FRAGMENTED TOOLS,
TRAINING, AND
SOLUTIONS.

Thousands of tools and
courses, but no unified path
or proven implementation
framework.

3

NO TRUSTED
STANDARDS OR
CERTIFICATIONS.

Employers and organizations
lack confidence in skills,
credentials, and AI readiness.

4

COMPLEXITY IN
IMPLEMENTATION.

Strategy, governance,
security, data, change
management, and ROI are
major barriers to adoption.

5

ISOLATION, NOT
COMMUNITY.

Entrepreneurs, creators, and
professionals need places to
learn, collaborate, and
innovate together.

6

THE RESULT: LOST
PRODUCTIVITY,
WASTED INVESTMENT,
MISSED
OPPORTUNITIES.

Widening inequality and
slow adaptation in a fast-
moving world.

THE WORLD DOESN'T NEED MORE AI TOOLS.
IT NEEDS A TRUSTED ECOSYSTEM TO ADAPT, CREATE, AND THRIVE.

HOW ARE WE SOLVING THIS?

OUR PURPOSE

We combine human creativity with artificial intelligence to create stories, systems and experiences that move people and elevate brands.

MARKET POSITION

THE COMPETITIVE LANDSCAPE

TODAY'S MARKET IS FRAGMENTED. OUR ECOSYSTEM CONNECTS IT.

EXISTING MARKET LEADERS

Strong companies. Narrow focus. Each solves only a piece of the puzzle.

coursera

Online courses & university partnerships

Massive catalog and reach, but limited implementation, certification depth, and real-world application.

UDACITY

PART OF ACCENTURE

Technical AI & career training

Strong in nanodegrees and skills training, but lacks ecosystem, long-term certifications, and software solutions.

multiverse

Enterprise workforce AI training

Excellent enterprise reach and apprenticeship model, but limited creative, software, and innovation capabilities.

FRAGMENTED MARKET

Siloed solutions. Disconnected outcomes.

CATEGORY CREATION

Most companies focus on teaching AI. Others build software. Others provide consulting. **IMAGINE Group integrates education, implementation, creative production, software, and community into one scalable ecosystem designed to accelerate AI adoption.**

We're not competing to build the best AI course.

We're building the operating system that connects the entire AI adoption lifecycle.

INTEGRATED ECOSYSTEM

One platform. All the pieces working together.

MULTIPLE REVENUE ENGINES

Education, software, solutions, and services.

HIGHER LIFETIME VALUE

More touchpoints. Deeper relationships. More impact.

NETWORK EFFECT

Every participant strengthens the entire ecosystem.

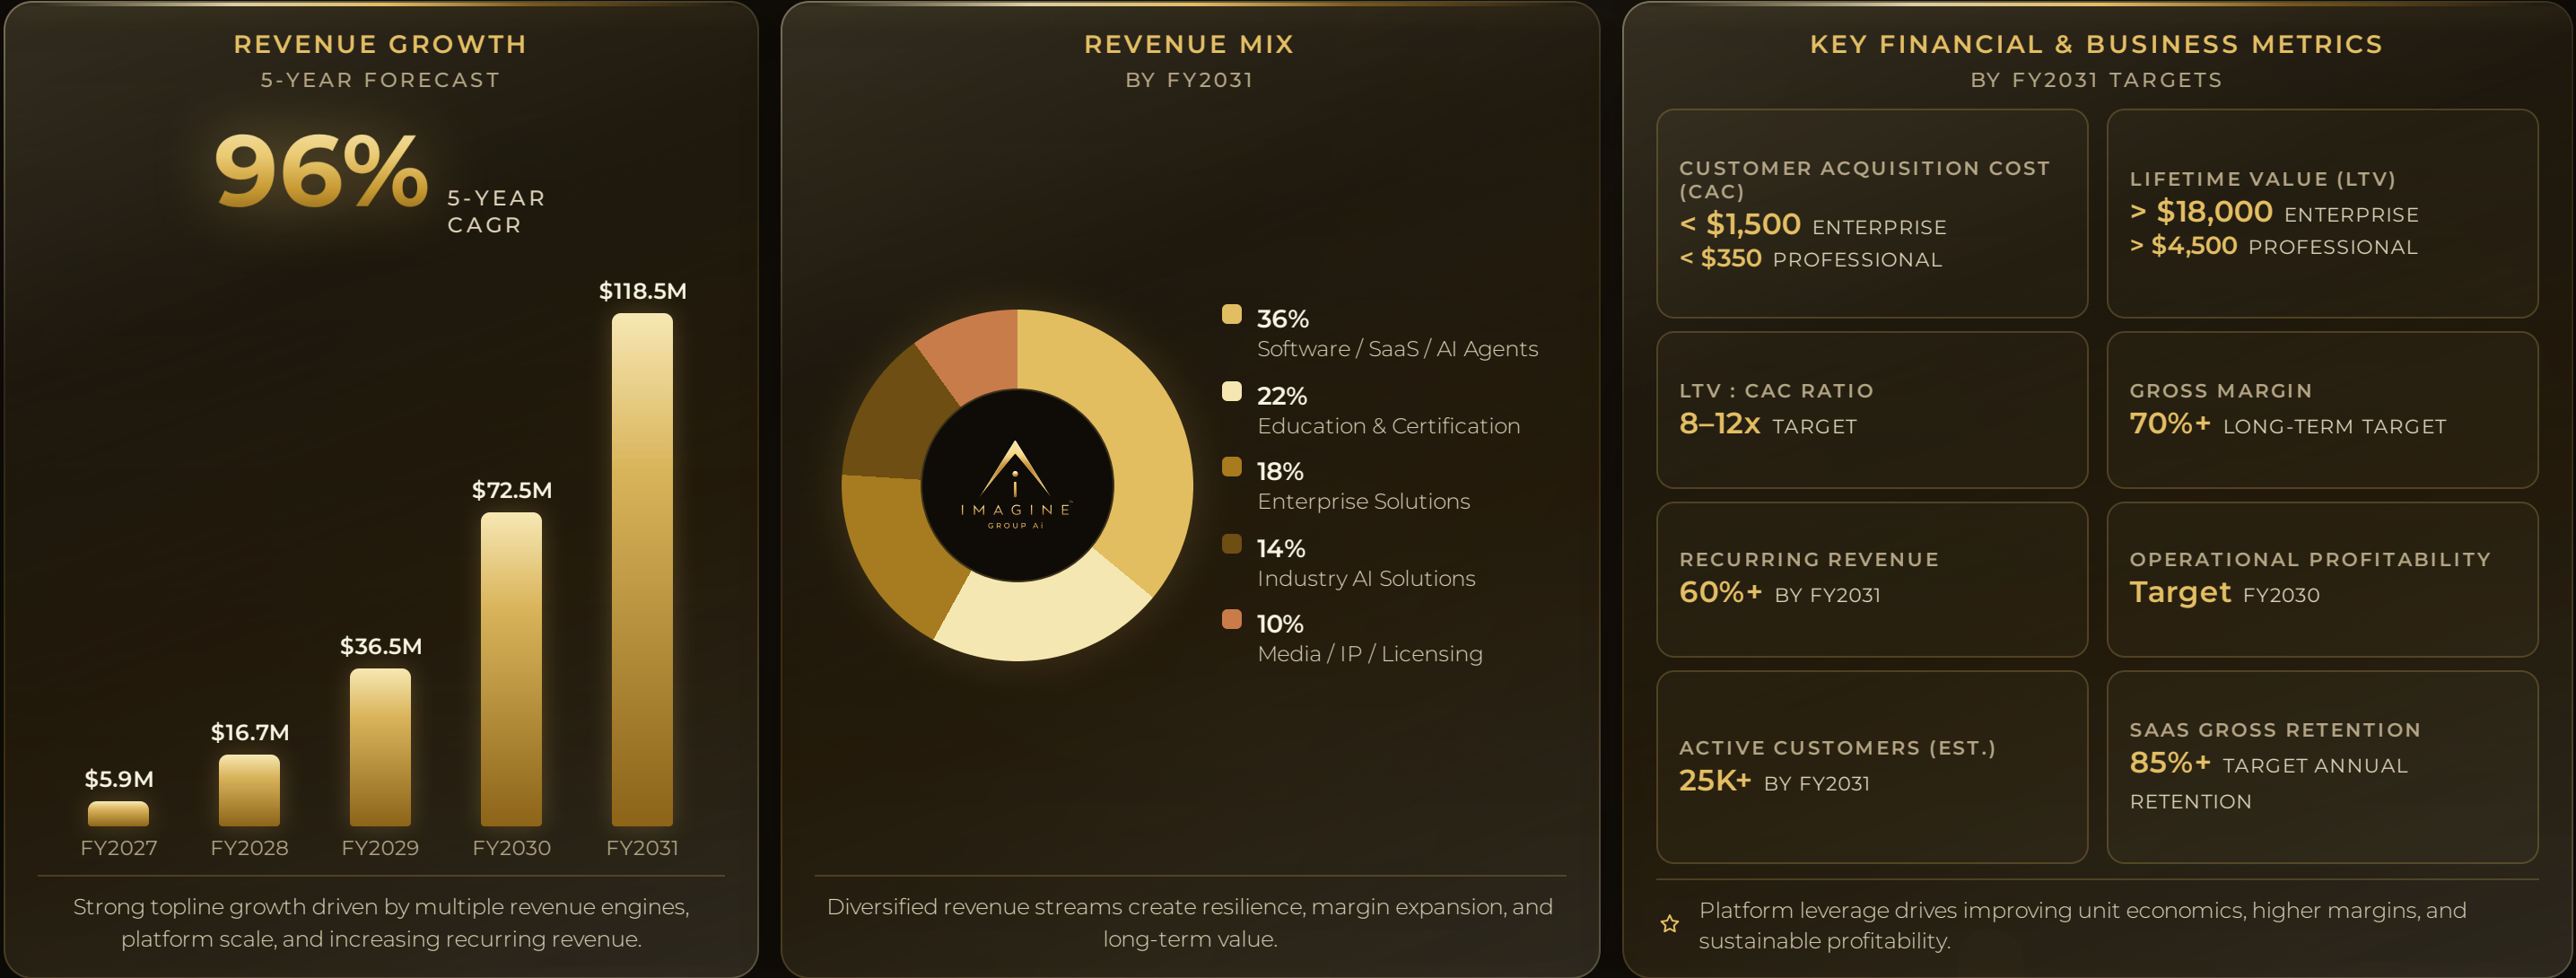

GLOBAL SCALABILITY

Digital-first. Industry-agnostic. Borderless impact.

THE FINANCIAL MODEL

THE ECONOMICS OF THE ECOSYSTEM

SCALABLE. RECURRING. PLATFORM ECONOMICS.

MULTIPLE GROWTH DRIVERS

Education, software, enterprise, media, and partnerships fuel scale.

OPERATING LEVERAGE

Platform scale improves margins over time.

HIGHER LTV

Cross-sell across the ecosystem increases lifetime value.

NETWORK EFFECTS

More users, partners, and solutions strengthen the entire platform.

GLOBAL OPPORTUNITY

AI adoption is accelerating across industries worldwide.
